Dear Vern:

I wanted to write this letter to your company to let you know how pleased we are with the replacement of the water cooled air conditioning units in our building with the new high efficiency roof top system.

We have now had an opportunity to look back at year one of the cooling season and found that our billing from the Public Utilities over the cooling months had been reduced to \$1170.00 per month. The savings for us was approximately \$20,000.00 in the first cooling season and a two year payback on our investment.

The only thing I wish we would have done is replaced the water cooled units seven years ago when we bought the building.

Vern, I want to thank you and you staff for a job well done, in a professional and timely manner.

Yours truly,

A handwritten signature in black ink, appearing to be 'Wayne', written over the typed name.
